This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

AS AMENDED BY CHAP. 423, LAWS OF 1874, PASSED MAY 11, 1874.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

city of New York, to promote, encourage, and sustain, by all proper means, absolute and unqualified loyalty to the Government of the United States; to discountenance and rebuke, by moral and social influences, all disloyalty to said Government, and every attempt against the integrity of the nation; and, in furtherance of these objects, to establish and maintain a Library and a Gallery of Art and Military Trophies, especially devoted to the perpetuation and illustration of the patriotic services and sacrifices by which the existing struggle against rebellion has been characterized.

SEC. 2. Said corporation shall have power to make and adopt a constitution, by-laws, rules, and regulations for the admission, suspension, and expulsion of its members, and their government, the collection of fees and dues, the number and election of its officers, and to define their duties, and for the safe-keeping of its property, and from time to time to alter, modify, or change such constitution, by-laws, rules, and regulations. REPORTS.

REPORT OF THE EXECUTIVE COMMITTEE

FOR THE YEAR 1891.

To the Union League Club:

In pursuance of the requirements of the 7th By-Law of the Club, the Executive Committee begs leave to submit the following report of its proceedings for the year 1891.

Your Committee after organizing entered upon the discharge of its duties by the appointment of a House Committee, consisting of three of its members, and by and with the aid and assistance of this sub-committee has daily exercised a general superintendence over the internal affairs of the Club, controlled and managed its property and enforced the preservation of order and obedience to its rules.

Besides the daily attention which has been given to the general affairs of the Club through its sub-committee, it has fully complied with the requirement of the 8th By-Law by holding monthly meetings for the transaction of business, and has

also, from time to time, and whenever occasion required, held special meetings for the same purpose.

At all these meetings general and special, there has been, as a rule, a full attendance of its members, and the affairs of the Club have been fully and carefully considered and settled in accordance with what seemed to the Committee to be for the best interests of the Club.

Your Committee also entered upon the discharge of its duties fully impressed and imbued with the expressed desire and purpose of the Club to not only live within its income, but also to save from it a substantial sum for the future use of the Club; and with this end and object in view, your Committee has constantly and carefully watched the expenditures in order to prevent waste and unnecessary and needless extravagance; and in the performance of this duty too much praise cannot be bestowed upon the House Committee for the untiring care and efficient manner with which it has discharged its duties, for upon this Committee in the first instance has very largely devolved the responsibility of determining what expenditures were necessary to be incurred for the well-being of the Club and the comfort and convenience of its individual members.

Your Committee, for a detailed statement of the receipts and expenditures for the year, most respectfully refers to the report of the Treasurer, which shows the very gratifying result of a saving

from the receipts of nearly $40,000. When this Executive Committee entered upon the discharge of its duties, the Club had a floating debt of $13,925.02, which has been wholly liquidated from the receipts of this year, and from the same source there has been turned over to the Finance Committee the sum of $25,565.65 for the future use and benefit of the Club.

Your Committee is pleased to report that the Club begins the fiscal year 1892 not only entirely free from debt, but with a surplus of upwards of $25,000 in the hands of its Finance Committee.

It is respectfully recommended that the incoming Executive Committee be authorized by the Club to expend from its surplus in the hands of its Finance Committee a sufficient amount to put the Club Building in thorough repair, and to redecorate it wherever it is necessary, as well as to replenish the same with new furniture where needed, and repair the old where its present condition will warrant and justify it.

Without a careful examination of the Building and furniture by an expert, it is impossible to accurately estimate the amount it will be necessary to expend in this connection, but from the report of our Superintendent it is confidently believed that the whole cost will not exceed $15,000.

The Club House was new when the Club entered it over ten years ago, and at that time also most of the furniture was new; and while from time to time

there has been some money expended in repairs to the building and furniture, yet for the past ten years neither has had a systematic and thorough overhauling, and all things considered it is respectfully submitted that the sum of $15,000 is not too much to expend to make the Club-house and furniture worthy of the Club, and in every way suitable for the convenience and comfort of its members.

Your Committee also recommends that the Club incur the necessary expenses for the purchasing of suitable machinery which will enable us to light our Building. The urgency of this step cannot fail to be appreciated when it is considered that it has cost the Club over $9,000 for gas and electric lights during the past year; and from a careful estimate the cost for the ensuing year will be about $12,000. It is confidently believed that with an expenditure of about $15,000 we can put in an electric light plant which will furnish us with 1,500 lights at an annual saving of over $4,000, and give us more and better lights than we now have.

Your Committee has caused to be prepared and herewith submits a tabulated statement showing first the names of the deceased members for the year 1891, and second the number of new members added to the Club during the year, and its loss of members by death, resignation, and otherwise for the same period.

It will be observed that death has deprived us of some of our most esteemed members, among whom is General William T. Sherman, who during the closing years of his life frequently honored the Club with his presence, and took an active interest in all that concerned its welfare. He not only loved our Club, but he was in turn loved and respected by all its members. Not only the Club but the Nation mourns his loss, for he was a great soldier and a sincere patriot.

While the various standing Committees make their reports direct to the Club we may be permitted to commend them to favorable consideration for the very efficient manner in which they have sever-

ally performed the various duties assigned to them by the By-Laws.

In conclusion, your Committee begs to express the wish for the continued success and prosperity of the Club and its individual members.

All of which is respectfully submitted,

RUFUS B. COWING,
Chairman.

REPORT OF THE COMMITTEE ON LIBRARY AND PUBLICATIONS.

NEW YORK, January 14th, 1892.

The Committee on Library and Publications respectfully submits the following report:

The number of volumes in the Library of the Club is 8,059, of which 689 have been added during the past year.

At the beginning of the year 1891, the usual appropriation of $4,000 was made for the use of the Library Committee, and this sum has been expended in the purchase of books, newspapers, and magazines. Upon the application of the Committee a further appropriation of $1,000 was made, which has been expended in repairing the furniture in the Library.

With the exception of the New York City papers the Committee has renewed all subscriptions for newspapers and magazines through the American News Company of this city, and has arranged so that all subscriptions shall expire on the last day of February, 1892. By placing all the subscriptions with this company a liberal discount was obtained, and by hav-

ing the subscriptions expire at the time above stated the next Committee will have the opportunity of determining, shortly after they come into office, what papers and magazines shall be supplied to the Club.

The Committee has subscribed for, and there are now on the files, twenty-five of the leading daily newspapers published in the different sections of the United States, many of them having been substituted for weekly editions.

As far as possible all sets of books that were incomplete have been completed.

There have been preserved and bound copies of the *New York Tribune*, the *Evening Post*, the *Economist*, of London, and the *Commercial and Financial Chronicle*, from the 1st of January, 1891. The Committee was of the opinion that files of at least two of our daily papers should be permanently accessible to the members of the Club, while the well known character of the *Economist* and the *Commercial and Financial Chronicle* make them valuable for future reference.

Following the custom of previous Committees, the illustrated papers and magazines were sent early in the year to the different hospitals in the city, and the daily city papers are now regularly sent the day after they are received at the Club, to the Hospital Book and Newspaper Society.

Recognizing the advisability and importance of making this Committee a continuing rather than an annual one, and for the purpose of bringing about

this result, at the suggestion of the Committee, a change in the By-Laws was made by the Club at the last October meeting. It was the opinion of the Committee, and of many of its former members, that, by dividing the Committee into classes, a more uniform policy in the purchase of books, and in the management and development of the Library, could be pursued, and the Club would be better served if a majority of the Committee should always consist of members who had become familiar with the needs of the Library and the duties of their office from actual experience.

The effect of this change in the By-Laws will be to retain at all times upon the Committee three members who have had two years' experience, and three members who have had one year's experience. By reason of this change, the membership of the Committee has been increased to nine, divided into three classes of three members each.

A careful examination of the books in the Library has been made with a view of ascertaining in what respects the Library was incomplete, and of recommending the purchase of such books as were needed to improve it. In making this examination, valuable assistance has been rendered by Mr. A. R. Spofford, the Librarian of Congress, and others, who have personally given much time and attention to the matter. Appended to this report is a list of the books which the Committee recommend should be purchased for the Library. With these additions it is

believed that the Library will be much more useful and better adapted to the needs of the Club than it is at present. These books can be purchased for about $1,500, and an extra appropriation is recommended for that purpose.

Appended will be found a list of the books purchased during the past year and of the papers and periodicals received by the Club, and a tabulated statement of the expenditures of the Committee.

PIERRE de P. RICKETTS, *Secretary.* WALTER C. GILSON, *Chairman.*

REPORT OF THE COMMITTEE ON ART.

NEW YORK, January 14, 1892.

In presenting its annual report the Art Committee of 1891 has the honor to refer briefly to the six exhibitions held, to analyze the cost of the work, to make such recommendations as seem just and advisable, and to apprise the Club of gifts of art treasures.

Four hundred and fifty pictures have been hung in the six displays—an average of seventy-five to each meeting. In February the first exhibition became notable by the showing of works by famous old masters. In addition, the walls of the large hall held thirty-four examples of the work of Claude Monet. The Committee acknowledges its debt to W. H. Fuller, Esq., of this Club, for his valuable aid in securing the specimens and for preparing the comprehensive brochure reviewing the aims and methods of Monet the painter.

The March display was distinguished because of the loan of a fine example of the old master Pieter de Hooghe.

A custom of the Club to hold the annual water-color exhibition in April was adhered to, and eighty-two representative pictures were shown.

In November the gathering of oil paintings was resumed, and a portrait by Eastman Johnson of the lamented Jackson S. Schultz was exposed for the first time.

The sixth and final exhibition in January was made up of the pictures of American artists exclusively, and indicated the rapid advance made recently by many of our native painters.

A small balance left from the appropriation of a previous season made possible the purchase at the artists' public sale of a fine landscape by W. H. Lippincott.

The Committee earnestly recommends the creation of a fund for the purpose of buying works of art in oil by native artists.

It further asks for an immediate appropriation of one thousand dollars to pay for the work necessary for the preservation of the paintings now owned by the Club. An examination of these historical pictures and portraits reveals the fact that many need prompt treatment by skilled restorers.

The *final recommendation* is one which it is hoped will lead to the use and enjoyment by the members of the Art Gallery during the six months between the spring and fall displays.

Some of the Club's friends have agreed to lend a sufficient number of paintings to comfortably fill

the galleries during the summer months. These loans to be subject to the acceptance of the Art Committee and the conditions it imposes. Such an exhibition of pictures, together with the cabinets of art objects now in place, would possibly prove a pleasant feature to those who frequent the Club in summer and who wonder that one of the coolest and most attractive apartments in the Club is closed.

The expenses for the year ending December, 1891, have been $3,194.16. The total for the same period in 1890 was $4,272.83. The reduction in the catalogue outlay has been 25 per cent. The cost of draping the galleries has been lessened. The items of transportation, hanging, etc., have been reduced. Securing very valuable paintings has advanced slightly the expenses of insurance. The Art Committee has much pleasure in announcing the gift of a portrait of Henry Clay by the artist C. W. Jarvis.

Howard Lockwood, Esq., has presented the picture to the Club, and his generous act increases the interest and value in the collection of portraits of famous statesmen now in the Club's possession.

In Cabinet B in the gallery the old Chinese single-color porcelains have been enlivened by the addition of ten antique specimens, with a view to add new color notes and pleasant forms. These objects have been given by one who retires from office this evening and who feels grateful to his fellow-members of

the Committee for their support, and to his Club associates for their too generous recognition, in many ways, of what has been to him *at all times* a delightful service.

THOMAS B. CLARKE,
Chairman.

REPORT OF THE COMMITTEE ON POLITICAL REFORM.

UNION LEAGUE CLUB,
January 14, 1892.

The Committee on Political Reform respectfully submit the following report:

The Committee have held the usual regular monthly sessions, but have submitted only two reports for the action of the Club. Many important questions have been considered and are now pending before it.

The deplorable event at New Orleans startled the civilized world, and it seems fitting that this Club should contribute its influence on the side of that almost universal condemnation of that event, which found expression in all civilized communities. The report of this Committee on that subject was adopted on the 9th day of April last. It may gratify the members of the Club to know that it was quoted and commented upon extensively in this country and in Europe. The comments, except in the Southern States, were generally commendatory, showing that the views therein expressed were those

approved by the more thoughtful writers of the times. In that report it was pointed out that the root of that difficulty was to be found in our lax laws touching ignorant and criminal immigration.

On the 14th day of May a further report was submitted pointing out the peril to our institutions from the almost criminal neglect of the judiciary in not enforcing the present laws when naturalizing emigrants, many of whom are totally unfit to be clothed with the elective franchise. In this report it was recommended that a petition be extensively circulated throughout the United States asking Congress to change the naturalization laws so as to throw greater safeguards around the elective franchise. This report was adopted unanimously by the Club. As the circulation of this petition would require the expenditure of a considerable sum of money, the Club referred the question of circulating the petition to the Executive Committee. The matter thus passed out of the hands of this Committee, and the Committee is not advised what action, if any, was taken by the Executive Committee. It is proper to state, that recent events in this city just prior to our late election have added force to the recommendations in the report, and are illustrative of the evils and inefficiency of our present laws as now administered by some of the judges. Your Committee find no occasion to abate in any manner its criticisms upon the conduct of the judiciary. This subject cannot be too often or too

earnestly pressed upon the attention of the people. This Committee has not deemed it wise up to this time to make a further report on these all-important questions of emigration and naturalization, in view of the fact that the General Government had appointed a commission to visit Europe and report on the subject of emigration. It is hoped that when their report is made, new and material facts will be brought to light.

This Club was organized to exert influence upon the Government and build up and sustain a sound public sentiment in favor of the maintenance of the same. In its inception its inspiration was patriotism and an earnest desire to save the Government in its peril. On this question its record is one of which every member is proud. In its action it worked earnestly in harmony with a Republican Administration. When the war ended the Club continued its earnest work supporting Republican measures, and has continued to give such measures its hearty support up to this time. Its national reputation has been built upon its political action, until now eminent representative Republicans from almost every Northern State are in our membership. So far as this Club has a wide reputation at this time, it is based chiefly on its political character. It is idle to refer to its war record and what it accomplished as the only end and purpose of its existence. Its life and history for more than a quarter of a century since the war closed are a constant protest against

any such narrow view. The Club is and always has been a political club with views upon all great political questions. The vitalizing force here always has been political action. That the founders of the Club contemplated its continued activity in the political field is shown by its adoption immediately after the close of the war in 1866, of the 4th Article of Association, in these words: "It shall be the duty of the Club to resist and expose corruption and promote reform in our National, State, and Municipal affairs; and to elevate the idea of American citizenship." It would be difficult, with so few words, to choose other words that would open as wide a field of political action. The traditions of the Club and the personnel of its membership point with unerring certainty to the lines within which political action should be taken by your Committee. A political club must bring its influence to bear upon a political party to accomplish practical results in any free country. This is and doubtless will remain a Republican Club. Believing that this is a true statement of the views of a vast majority of its members, this Committee has, without hesitation or doubt, when occasion has called for it, sustained Republican measures and policy. While this Club is distinctively Republican, it is not by any means limited to questions of party measures, but has always taken high and broad grounds upon all great and important matters.

This Committee is again called upon to report the

death of one of its members, Morris M. Budlong, late Secretary of this Committee, who fell dead on the morning of the 30th day of November, 1891, while in the discharge of his professional duties. He was a useful and conscientious member of the Committee, and his loss will be greatly felt by all his associates.

Respectfully submitted,

E. B. HINSDALE,

Chairman.
